IMPRABOARD® FLUTE

Impraboard® Flute is a corrugated/twin-wall polypropylene plastic sheet that consists of two flat sheets connected by parallel ribs. It is made from high-quality and recycled polypropylene material using advanced extrusion technology, **Impraboard® Flute** delivers a durable, lightweight solution with a smooth print-ready surface. Ideal for cost effective signage, displays, packaging, protective panels and industrial applications.

KEY FEATURES

- Water & weather resistant
- Lightweight
- Excellent print-ready surface - Corna treated
- Easy to cut & fabricate
- Cost effective
- Durable
- Chemical resistant

PRODUCT APPLICATIONS

- Restate & temporary signs
- POS displays
- Packaging
- Protective panels
- Waterproof membranes
- Exhibition stands
- Reusable dividers
